CSIT World Sports Games 2023, the Story in pictures

From September 5 to 10, 2023, the CSIT World Sports Games - the multi-sport and cultural event promoted by the International Workers & Amateurs Sports Confederation - peacefully invaded the Riviera Romagnola, in northeastern Italy, on the Adriatic Sea: a 90-kilometer-long strip of land that holds history, strong gastronomic and craft traditions, and has long been considered one of the capitals of sports tourism in Italy.

The city of Cervia was the beating heart of the event, but six other cities hosted sports competitions and cultural events on those days: Riccione, Misano Adriatico, Cesenatico, Cesena, Forlì and Ravenna.As many as 5 thousand people - including athletes, accompanying persons, coaches and volunteers - enlivened the event: more than 30 sports disciplines played, 42 sports venues engaged, 45 States involved and as many flags waved, five dance parties, 3 training workshops. EMILIOC, the organizing committee led by AiCS - CSIT's partner association - had the responsibility and the honor of organizing all this: an adventure that we will not forget and that allowed us to return joy and attention to the land of Romagna, hit only a few months earlier by a terrible flood, demonstrating the extraordinary power of sports, a vehicle not only of inclusion and sociality but also of tourism and economic promotion of a territory.

It is not easy to tell all this: the explosive power of such an event, the biggest CSIT event since the Covid pandemic, produces emotions that cannot even be told with words. We try then with pictures. In this photo book, we collect the sporting moments, the sharing moments and just a few of the many excited looks or tight hugs we exchanged during those days.

To EMILIOC's partners - the institutional ones and the commercial sponsors - we say thank you for moral support, cooperation and financial support.

To CSIT and its president Mr. Bruno Molea, we say thank you for the opportunity and the trust given!

World Sports Games, you will remain in our hearts!

Games of Peace and Reconstruction - Greetings from CSIT President Bruno Molea

The VII edition of the CSIT World Sports Games represented the first test for our Confederation after the Pandemic and the fears that accompanied the preparation of these Games were all fully refuted thanks to the exceptional participation achieved: 5,000 participants who finally returned to CSIT the spirit of brotherhood and the desire to be together through sport. Elements that have gone beyond the emphasis of sport competitions also in the name of fair play. Games which, as always, are characterized by the great message of peace and which in this edition also wanted to express solidarity with the flooded populations of the Emilia Romagna Region.

On behalf of the entire international Confederation, special thanks to the cities that hosted us, to the Region and the Italian Government for the splendid welcome they were able to give us and to AiCS – Associazione Italiana Cultura Sport, the organizing body of the Games, for the great organizational effort put in place. Thanks to all the athletes, coaches, sports managers and families, who, by participating at the multi sport event, make our Confederation great, year after year.

After this edition, I can only draw a positive conclusion and wish the mayor of Loutraki and HOCSH – the Hellenic Organisation Company Sport & Health, the next host organiser, successful work for the preparatory activities, we are ready to collaborate for 2025,
See you all in Greece for the VIII Edition of the Csit World Sports Games!

Bruno Molea
CSIT President
